PP/PE Compound

WE150CF

Peelable grade for film extrusion

Description

WE150CF is a polyolefin resin suitable for the manufacturing of non-oriented sterilisable peelable cast films on chill roll processes.

Cas No. 9010-79-1, 25087-34-7

WE150CF contains:

1000	ppm	Antiblocking agent
1100	ppm	Slip agent
yes		Calcium stearate

Typical characteristics

WE150CF can be described with following typical characteristics:

Seal- and peelable against itself

Seal- and peelable against Polypropylene

Sterilisable

High peel force

Applications

WE150CF is intended for following applications:

Lidding film

Retort food packaging

Lamination film

Medical devices

Packaging for pharmaceutical, medical device & diagnostic products

For any other potential Healthcare application or end use please contact up-front your Borealis Sales Manager or Application Development Engineer.

Physical properties

Property	Typical value *	Unit	Test method
Density	925	kg/m³	ISO 1183
Melt flow rate (230 °C/2.16 kg)	12.5	g/10min	ISO 1133-1
Flexural modulus [1]	1000	MPa	ISO 178
Melting temperature	135 - 155	°C	ISO 11357-3

* Data should not be used for specification work

[2] *Measured on injection moulded specimens, conditioned at 23 °C and 50 % relative humidity.*

Packaging and storage

WE150CF should be stored in dry conditions at temperatures below 50°C and protected from UV-light. Improper storage can initiate degradation, which can result in odour generation and colour changes and can have negative effects on the physical properties of this product.

Product compliance documents

Latest versions of product safety information sheets (PSIS), product safety data sheets (SDS) and other product liability documents are available in our website www.borealisgroup.com.

Sustainability aspects

Borealis is ever mindful of the impact of our products on the planet. We promote Design for Circularity (DfC) and Design for Recycling (DfR) to conserve natural resources and to reduce the environmental impact of products over their entire lifetime (including production, use phase and after phase). DfR helps ensure that material can be effectively recycled while maximizing the material performance efficiency. Further information on sustainability and Design for Recycling (DfR) can be found from our websites www.borealisgroup.com and www.borealiseverminds.com.
