Product Data Sheet

NOVAPOL® LM-0724-A Resin

Homopolymer LDPE Injection Molding Resin

Property		ASTM (1)	Typical Values (2)			
Melt Index(3)		D 1238	7.0	g/10 min		
Density		D 792	0.924	g/cm³		
			METRIC UNITS		ENGLISH UNITS	
Yield Strength(6)	(4)		12	MPa	1700	psi
Tensile Strength	(4)	D 638	11	MPa	1,600	psi
Elongation(4)	(4)	D 638	500	%	500	%
1% Flexural Secant Modulus		D 790	345	MPa	50,000	psi
2% Flexural Secant Modulus		D 790	305	MPa	44,200	psi
Hardness, Shore D		D 2240	54		54	
Vicat Softening Point		D 1525	97	°C	207	°F

(1) Properties designated have been determined using methods which are in accordance with, or substantially in accordance with, the specified testing standards.

(2) Typical Values represent average laboratory values and are intended as guides only, not as specifications.

(3) Condition 190°C/2.16 kg.

(4) Tensile pull speed 50 mm/min.

Melt Index	**7.0**
Density	**0.924**

Features

- Excellent balance of stiffness and toughness
- Good processability and dimensional stability

Applications

- Caps and closures, including tamper evident closures

Product Data Sheet

NOVA Chemicals® Polyethylene

NOVAPOL LM-0724-A Resin

Homopolymer LDPE Injection Molding Resin

Availability

NOVAPOL LM-0724-A polyethylene resins are available in bulk hopper cars, hopper trucks, boxes, sea bulk containers, or bags. The product type and batch number are clearly marked on each container. Contact the NOVA Chemicals sales office nearest you for availability in your area.

Storage/Handling

NOVAPOL LM-0724-A resin should be stored in a clean, dry place at ambient temperatures. Prolonged or improper storage can result in deterioration of product properties. Care should be taken when handling and transferring product to prevent foreign matter contamination. The NOVA Chemicals Safety Data Sheet (SDS) contains important safety information and should be reviewed before using the product.

Processing Conditions

Comprehensive assistance with processing conditions and technology is available from NOVA Chemicals Technical Service at (403) 291-8444.

Food Packaging Status

United States: NOVAPOL LM-0724-A resin complies with the specifications contained in the U.S. Food and Drug Administration (FDA) regulation 21 CFR 177.1520 for olefin polymers, para. (c) 2.2, and may thus be used in the United States as an article or component of an article intended for use in contact with food, without food-type restrictions, under Conditions of Use A–H (21 CFR 176.170(c) Table 2).

Other Countries: For regulatory compliance information for other countries, please contact your nearest NOVA Chemicals office.

Environmental

NOVA Chemicals polyethylene resins are biologically and chemically inert, but improper disposal may present an ingestion hazard to wildlife. Where recycling of NOVA Chemicals' polyethylene resins is not possible, disposal to landfill or incineration in accordance with all applicable government laws and regulations is recommended. Please contact NOVA Chemicals Technical Service for further information on recycling and disposal of NOVA Chemicals resins.

is the SPI resin code developed for low density and linear low density polyethylene to identify material type for sorting and recycling purposes.
