# PP PETOPLEN MH418 FOOD CONTACT DECLARATION

## DECLARATION OF COMPLIANCE TO FOOD CONTACT REGULATIONS

We confirm that this product fulfills the applicable requirements on substances used for the manufacturing of materials and articles or components of articles intended to come into contact with foodstuff in accordance with following regulations, standards and recommendations below.

### TURKEY

- Registered by Production Permission Certificate (dated 12.08.2013) numbered with TR-35-K-017539 related to plastic materials and articles intended to come into contact with foodstuffs set forth in Turkish Food Codex Statute published in Official Gazette (dated 16 November 1997 with Number 23172).

### EUROPEAN UNION

- Commission Framework Regulation (EU) No.1935/2004/EC.
- Commission Regulation (EU) No 10/2011 of 14 January 2011 on plastic materials and articles intended to come into contact with food, as amended by Regulation (EU) 2024/3190, Regulation (EU) 2025/351 and Regulation (EU) 2026/245.
- Commission Regulation EC No. 2023/2006 on Good Manufacturing Practice for materials and articles intended to come into contact with Food.

### GERMANY

- BfR Recommendation VII (Polypropylene), Recommendations on Food Contact Materials, as of 01.09.2017

### UNITED KINGDOM

- The Materials and Articles in Contact with Food SI No. 704 - (England) (Amendment) (EU Exit) Regulations SI No. 186 - (Nothern Ireland) (Amendment) Regulations SI No. 32 - (Scotland) (Amendment) Regulations SI No. 913 - (Wales) (Amendment) Regulations (referring to Version Superseded: 01/04/2025)

### USA

- Code of Federal Regulations, issued by the Food and Drug Administration (FDA), Requirements of plastics in contact with foodstuff set forth in 21 CFR § 177.1520 (a)(1)(i).
- All additives used in the manufacture of this product are generally recognized as safe (GRAS) in according to 21 CFR § 178.2010 (Indirect food additives).

## SWITZERLAND

- 817.023.21 FDHA Ordinance of 16 December 2016 on Materials and Objects Intended to Come into Contact with Foodstuffs (Consumer Goods Ordinance); implemented Switzerland Official Collection 2023 836; revision of the Ordinance on Materials and Articles Intended to Come into Contact with Foodstuffs (Materials and Articles Ordinance. (Modification of 13 November 2024 amending on SR 817.023.21).

## CHINA

- GB 4806.1-2016 - National standard on general safety requirements for materials and articles in food contact - for polymer resins.
- GB9685-2016 - National standard on the use of additives in food containers and packaging materials, Appendix A - Table A1
- GB4806.7-2023 - National Food Safety Standard on Food Contact Plastic Materials and Articles, so far applicable to "Resin" as described in chapter 2.1.

## ADDITIVES

- This product does not contain monomers with specific migration limit.
- This product contains intentionally added dual-use additives which are subject to disclosure of adequate information as described in Annex IV of Commission Regulation (EU) 10/2011. The identity of these substances can be disclosed for testing purposes upon special request and under maintaining secrecy.
- This product does not contain additives which are regulated with specific migration limit.

## MIGRATION LEVEL AND TESTING

The overall migration shall be less than 10 mg/dm² set out in Article 12 of Commission Regulation (EU) 2011/10. Representative samples from product which have been tested at 40°C for 10 days (OM2) in food simulant A, B, C, D1, D2 did not exceed the limit of 10 mg/dm² for overall migration. Indicated data are the results of our investigations and only represent the samples from the product. The migration test results may differ from the performance of the final plastic material or article under the actual and foreseeable conditions of use. It is the responsibility of our customers and/or users to check if the final materials and articles are suitable for the intended use and comply with the applicable regulations.
